Report on HOPE Activities

HOPE is very much pleased to share the information on its activities over the years since the start of its operation. In an attempt to make the Report short and sweet, as much as possible, pictorial illustrations have been given priority rather than text.

Statistics on HOPE Scholars and Disbursement of Scholarships

During the last academic year [2015-'16], HOPE has disbursed Rs 21 Lakhs as HOPE Excellence Awards to 309 No. of outstanding children from 180 Govt./Govt. aided schools from all the 14 districts, which covers the entire Kerala.

A diagrammatic district wise illustration of the above is as shown below. This is the current statistics of the last academic year [2015-'16].

Forecast for 2016-'17

Mentoring

Mentoring is one of the prime activities of HOPE in addition to the financial assistance to HOPE Scholars, which is observed to be very effective not only in inspiring Scholars in their studies but helps to enhance their self confidence in facing various challenges in life too.

As part of the mentoring process several HOPE volunteers used to visit the Scholars in their houses to meet them as well as their parents/family.

HOPE Scholars Performance

HOPE Scholars have showcased excellent performance in the last 10th and 12th Exams. More than 50% of the total scholars appeared for the 10th Exam with overall performance of over 80% of the scholars came out distinctively. The performance of 12th grade students is also in the similar frequency. This is an exemplary achievement in consideration to the family circumstances of these brilliant kids.

Apart from the academic performance, HOPE scholars excel in extra-curricular activities too within the constraints of the limited resources available to them.

The adjacent picture collage illustrates a few achievements of the HOPE Scholars during the last academic year.

HOPE follows the Scholars who have passed out +2 in the yester years and report that the HOPE Scholars are keeping up the tradition of their seniors who have been to various prestigious professional institutions in Kerala/India.

HOPE Resources

The current prime resources of HOPE are its numerous sponsors and volunteers /Mentors.
